David Zsutty: Neo-Nazi in Law School

On March 6th, 2019, the independent media outlet Unicorn Riot published the internal chat logs of the neo-Nazi group Identity Evropa. Hundreds of thousands of messages were leaked from the group's member-only Discord server, which revealed extreme racism, white supremacism, anti-Semitism, Islamophobia, homophobia, transphobia, and misogyny. Since the breach, antifascist groups have sifted through the messages and tied real people to the user-names, exposing dozens of members across the United States. Identity Evropa helped plan the massive Nazi rally in Charlottesville in 2017 and the organization is currently being sued due to the ramifications of that event. Today, we are identifying the Identity Evropa member "Tyler Hess" as Chapman University student David Michael Zsutty (DOB 3/21/1987) from Oceanside, California.

David Michael Zsutty used the pseudonym "TylerHess" on the Identity Evropa server.

Zsutty is explicitly racist and anti-Semitic in many of his messages. In one [message](#), he defends the Charlottesville attacker [James Alex Fields](#), a Nazi who rammed his car into a crowd of people who were counter protesting the 2017 Unite the Right rally and who was recently sentenced to life in prison as a result of his terror attack. Zsutty thinks that "Fields is completely innocent, perhaps guilty of negligence at the very most." More than a dozen people suffered serious injuries and Heather Heyer was killed in the attack. In another message, Zsutty shares his anti-Semitic [conspira-](#)

cy theory, saying that he “suspect[s] that Jews are intermarrying with whites who share similar traits, such as narcissism, schizophrenia, socio/psychopathy, a certain low cunning born from a lack of morals, etc.” Zsutty also disparages his nonwhite classmates in the chat, writing that they “lack the analytical skill of our people.” In another message, he says that he wanted to be “study buddies” with a conservative woman in his class, but then he learned that she had a “mulatto” son.

@Grayson I don't want to go into too much detail for security reasons, but non whites lack the analytical skills of our people. They can sometimes regurgitate material well but with little to no original thought. In my classes I've had some of them literally start reading word for word out of the textbook instead of paraphrasing using their own words to show that they understand. They then also can't explain what those words actually mean when asked.

'Why?' is usually answered with 'ummm...'

David Zsutty shares how he feels about his non-white classmates.

TylerHess

But I will say that imo Fields is completely innocent, perhaps guilty of negligence at the very most, bad optics are weak evidence for establishing the express malice of first degree murder, many people commit murder and other crimes who are liberal or apolitical, and the vast majority of those with bad optics are not criminals although they do make me worry at times.

David Zsutty thinks that the Charlottesville vehicular attacker, James Alex Fields, is innocent. Fields injured dozens and killed Heather Heyer when he rammed his vehicle into a crowd of people protesting a massive Nazi convergence in 2017.

I suspect that Jews are intermarrying with whites who share similar traits, such as narcissism, schizophrenia, socio/psychopathy, a certain low cunning born from a lack of morals, etc. They are breeding themselves out of existence so much as reinvigorating their bloodline. They're so inbred that if they don't take Sachs and other disorders would overwhelm them.

David Zsutty slips some anti-Semitic conspiracy theories into the Identity Europa chats.

Zsutty also discusses his family in the Discord chats. He paints a biographical picture of his parents, who had him when they were in their “mid thirties.” His mother’s side is “Mayflower and Revolution,” while his father’s side is part Prussian and German. Zsutty’s family fits this profile perfectly, as his father, Michael Zsutty (DOB 5/26/1951), is a full 36 years older than David.

Another shared interest between Michael and David is running. Michael is part of a running club in Oceanside, which hosts weekend runs. Near the end of 2018, David helped other Identity Evropa members drop [an anti-immigrant banner](#) in Wickenburg, Arizona. He has been active in spreading Identity Evropa posters and stickers around his state, mainly targeting universities in Southern California. In the Discord chats, Zsutty recommends the Federalist Society to another Identity Evropa member with the screen name “Logan.” Earlier this year, [HuffPost revealed](#) that “Logan” is actually Logan K. Piercy, a Marine who attended the Unite the Right rally. He asks members of the group for political news sources, writing that “I can’t say my main news source is Fash the Nation.” Fash the Nation is a Nazi podcast which is part of The Right Stuff, a podcast network created by YouTube white supremacist Mike Peinovich. To this, [David recommends](#) the Cato Institute and the Federalist Society.

David Michael Zsutty joined Identity Evropa in June of 2018. Right off the bat, [he asks](#) about pursuing a libel or defamation lawsuit against the ADL or SPLC, liberal groups which monitor far right activity. Both of these groups consider Identity Evropa (now American Identity Movement) a hate group. Zsutty brings up the idea of legal action because he is a law student at Chapman University, which is in Orange, California. In another message, [he exclaims](#) that he would love to see a Supreme Court case on doxxing. Frivolous filings about doxxing have made their way to the courts, such as when the [Weed Nazi](#) Bethany Sherman tried to attack Eugene Antifa via the courts with a laughable defamation suit.

@Wood-Ape - OK/MN I'd love to see a Scotus case on doxxing, however, that would probably take a long time before it reached them even if a claim was filed today, and we would still need to find someone who was doxxed who is willing and able to fight for it in the courts for several months instead of keeping a low profile and rebuilding, which is understandably what most doxees want to do.

David Zsutty AKA "TylerHess" wants to see the courts institute penalties for doxxing.
